- 40ft Container: 38,000 lbs

Services

Beyond our premium products, we offer a suite of comprehensive services designed to empower our partners, streamline their operations, and enhance their brand presence in the market.

✓ Private Label Customization

1. Primary Packaging Selection:

Choose from diverse primary packaging types and various sizes tailored to both pasteurized crabmeat and canned seafood products.

2. Custom Packaging Printing:

Your brand's logo and design can be directly printed onto primary packaging, including cans, plastic pouches, or plastic tubs, providing a seamlessly finished product ready for market.

3. Sticker Labeling Service:

For added branding flexibility, we offer custom sticker label printing and application, ensuring your brand is prominently displayed on packaging surfaces.

4. Secondary Packaging Solutions:

Enhance retail appeal with custom secondary packaging solutions. This includes flexible multi-pack formats (e.g., 2-can, 4-can packs, or customized quantities according to your needs) and unique packaging shapes or sizes, ideal for seasonal promotions (e.g., Christmas, Thanksgiving) or special consumer sets.

5. Tertiary Packaging Customization:

Customize your master cartons with specific designs, logos, and branding. Clients can choose between standard master carton boxes or master tray cardboard options. Select from various sizes (e.g., for 6, 12, 24, or 48 units). For enhanced product visibility and retail aesthetics, master tray cardboard options can be shrink-wrapped for attractive in-store display and bulk purchasing appeal.

6. Creative Design Solutions:

For partners developing new brands or refreshing existing ones, we offer comprehensive creative design solutions. Our assistance extends beyond logo creation to include innovative packaging design, ensuring your brand identity is compelling and market-ready.

7. Product Specification Tailoring:

Customize product specifications including choice of sauce or packing media, crabmeat grades, and various product sizes. For canned tuna, we offer specific cuts such as solid, chunk, flakes, or shredded.

8. Product Composition Blending:

Offering unique flexibility, we enable the blending of different crabmeat grades (for pasteurized crabmeat) or the creation of mixed seafood combinations (for canned products) within a single packaging unit.

9. Lid Type Options:

For products utilizing can packaging, including both canned seafood products and pasteurized crabmeat, clients can choose between standard lids or convenient EOE (Easy-Open End) lids for enhanced consumer experience.

✓ Logistics Optimization

1. Palletized Shipments:

We offer palletized loading for container shipments, placing goods on pallets to facilitate faster and more efficient unloading by grouping boxes, significantly reducing manual handling.

2. Slipsheet Loading:

As an alternative to pallets, slipsheets are utilized for grouping cargo, providing similar ease of unloading in groups while consuming less container space, maximizing shipment volume.
